Our floor-grating system - an added benefit to every workplace

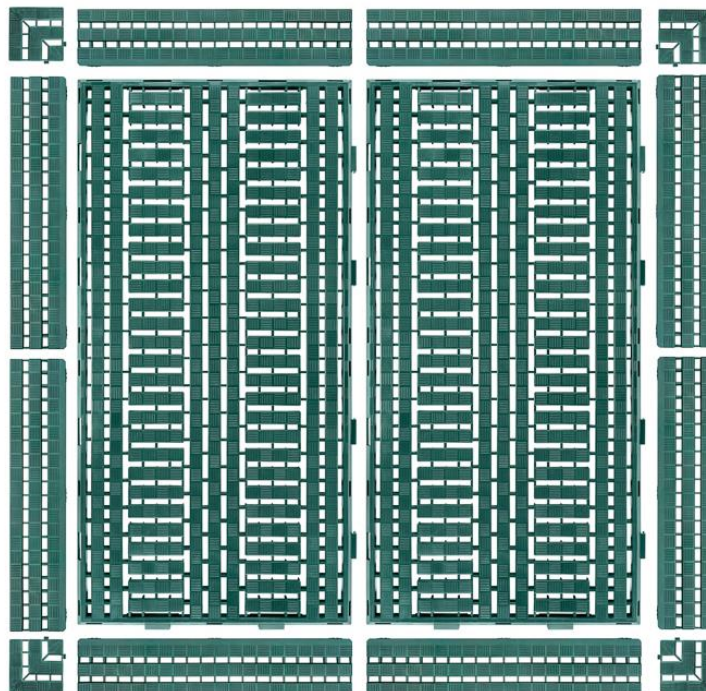

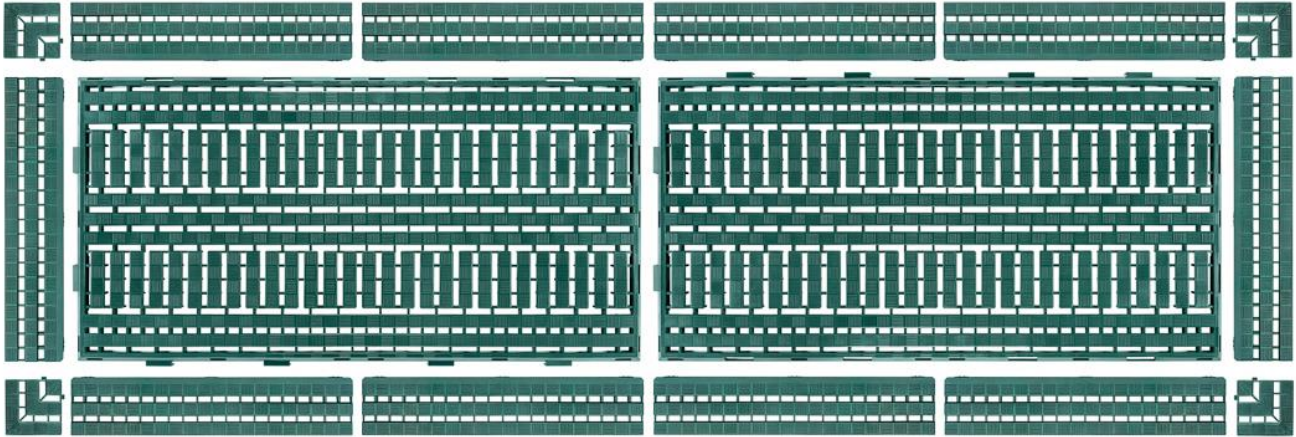

Our proven modular floor grating is recommendable for all standing-while-working scenarios, facilitating work conditions by protection from dirt, cold and moisture. Featuring a structured surface, stand- and step safety are provided. Derived from practical experience, it is a matured product that has proven its worth in many years' shopfloor usage all over. Large work areas can be laid out in a breeze, as the elements connect both length- and cross-wise. DIY-cutting and cleaning are easy business, too!

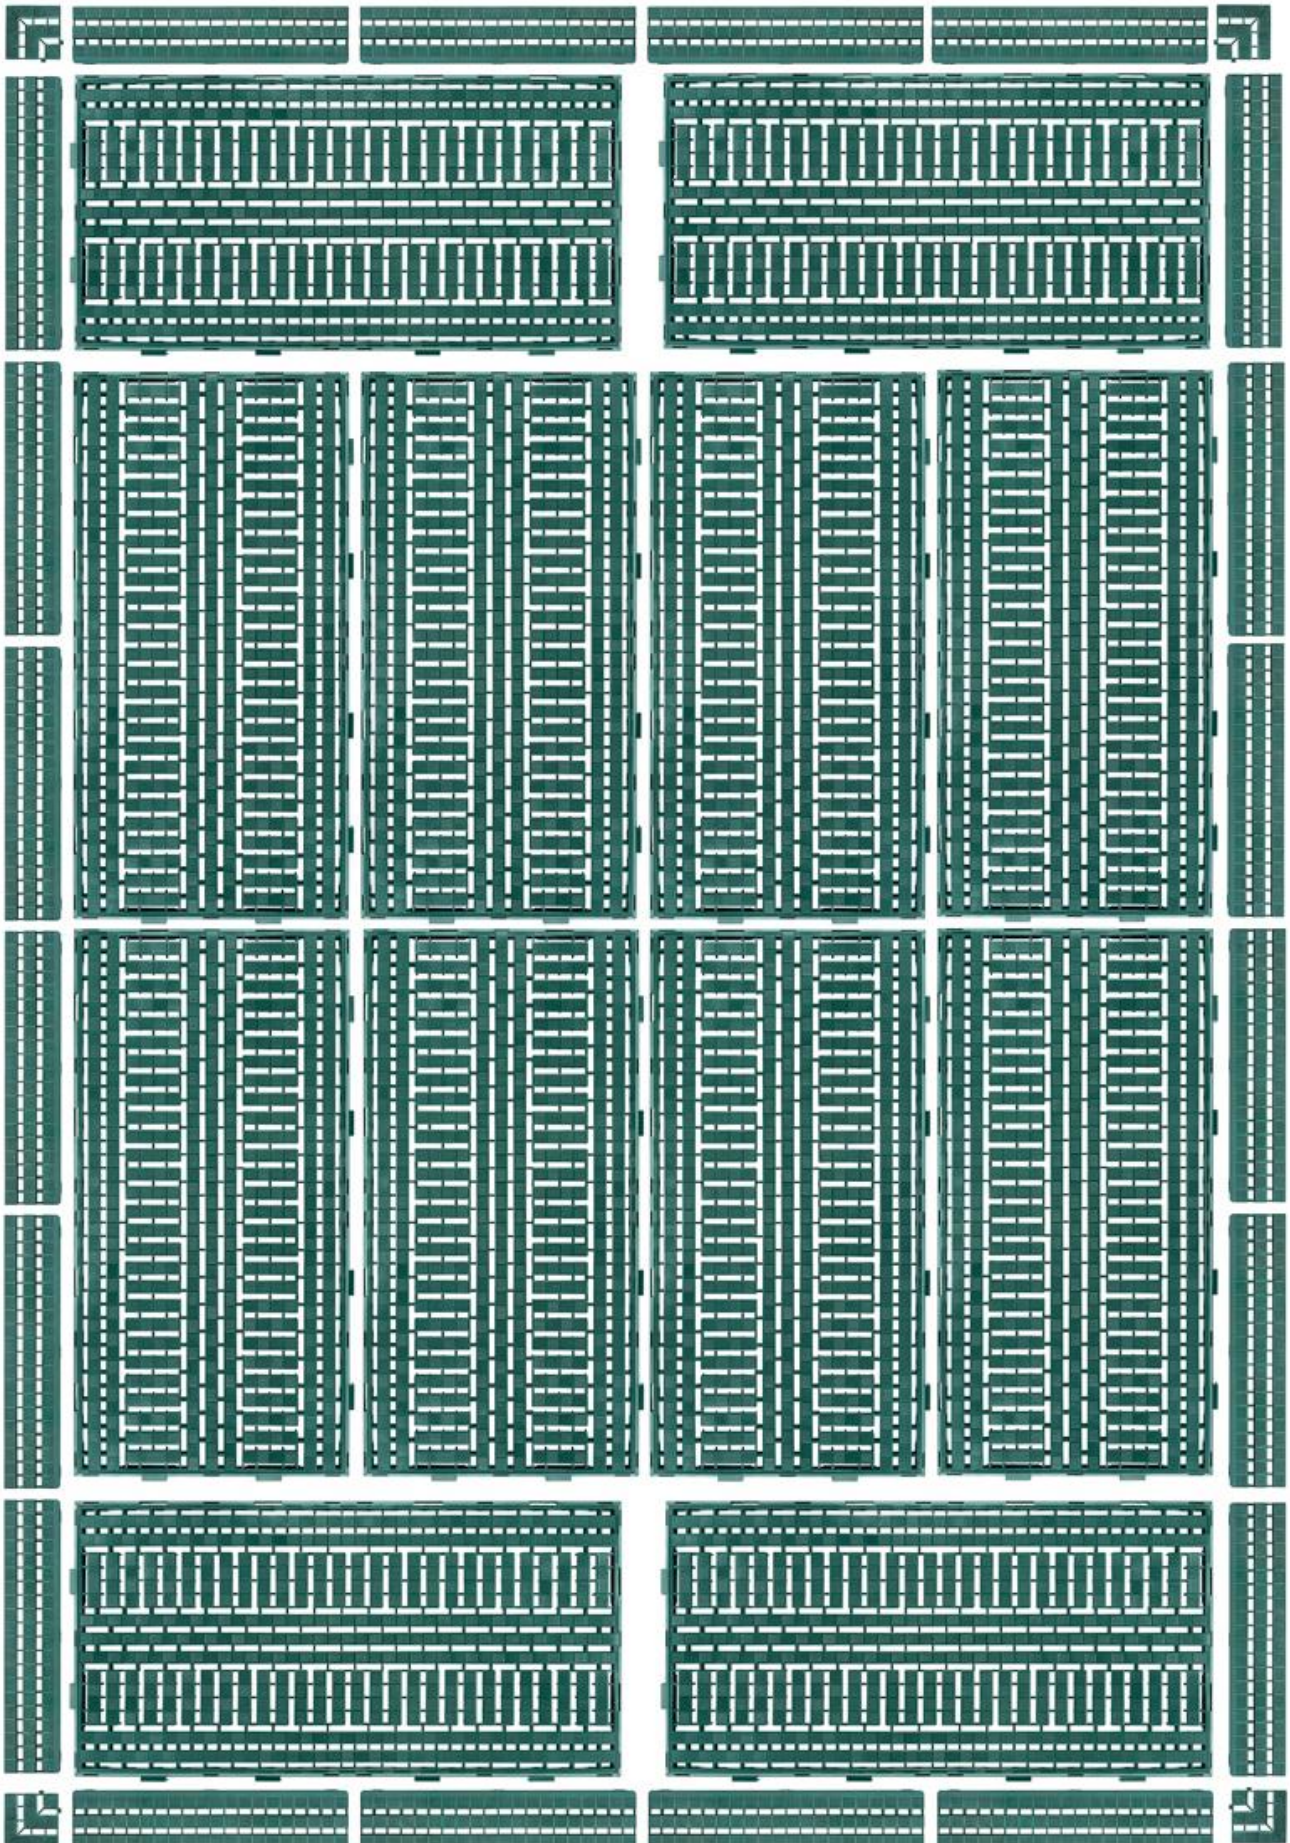

- **material:** high-pressure polyethylene
- **temperature range:** -30° to 60° Celsius
- **safety:** structured surface

combination examples for the floor-grating system
